CHILD CARE INFORMATION

BEFORE AND AFTER SCHOOL PROGRAMS

Our School-Age Child Development is something that comes naturally to the YMCA. Our state licensed programs focus on learning through play, exploration, and hands-on activities. Since quality child development starts with quality staff, our educated and trained staff is committed to each child's early education and emotional well-being. Programs provide our children with a stimulating, safe, loving environment that promotes their spiritual, physical, social, emotional and cognitive development. Our objectives are to provide a program where children and families feel comfortable. With these goals as our guide, we have no doubt that your children will have FUN, grow and develop, learn and make new friends.

Registration information is available at the Member Service Desk.

- We accommodate early dismissals and delayed openings.
- We offer programming for snow days, no school days and vacation weeks.

All School-Age Programs follow the YMCA of the USA School-Age Curriculum:

- Arts & Humanities
- Character Development
- Health, Wellness and Fitness
- Homework Support
- Literacy
- Science and Technology
- Service Learning
- Social Competence and Conflict Resolution

Families with more than one child enrolled in a YMCA Child Development program are given a 10% discount on the lower priced program. The sibling discount does not apply if that family is receiving financial assistance (i.e. YMCA Financial Assistance, Care 4 Kids or other third party providers). All YMCA Child Development programs are licensed by the State of Connecticut Department of Public Health, and all are accredited or in the process of being accredited by an outside agency.

A mission moment captured...

A young mother was offered an employment opportunity that would make a vast difference in her family's life. This new position meant that she would require before school care for her son. She had her reservations about making this change in her life because her son was autistic. The YMCA, the Plainville Community Schools and the mother worked together to make this a reality. The School Age Child Development staff have had the privilege of caring for this young man for three years now. The other children in the program have learned valuable lessons in caring, respect and responsibility.
